Sub : Appreciation for Voluntary Academic Contribution as Adjunct Faculty of Biology under Vidyasagar Learning Initiative during Academic Year 2024–25

Sir,

The undersigned is directed to convey the sincere appreciation of the Foundation for your voluntary engagement as Adjunct Faculty of Biology under the Vidyasagar Learning Initiative, with effect from October 2024. Your contribution in delivering instructional content aligned with the Grade X Biology curriculum of the Central Board of Secondary Education (CBSE), as prescribed by the National Council of Educational Research and Training (NCERT) for AY 2024-25, has been both timely and impactful.

It is placed on record that a total of 5 (five) lectures were prepared and delivered by you in furtherance of this initiative. The said lectures, made available through public digital platforms, were designed to ensure accessibility, academic clarity, and pedagogical consistency for learners across the nation. Rendered in a purely voluntary and non-remunerative capacity, your efforts exemplify a commendable commitment to the national cause of free and inclusive education.

The Foundation acknowledges your academic service in high regard and expresses its deep sense of gratitude. Your contribution has meaningfully advanced the objectives of the Vidyasagar Learning Initiative, and we look forward to your continued association in future endeavours of national importance.

Thanking you,

With best regards,

(Rudranath Roy)

Director
